

# SHARE PLAN LAWYERS TREATMENT

Share Plan Lawyers is a virtual group for lawyers who deal with employee share plans to collate and share knowledge, organise events and generally communicate with other members.

The site is a sophisticated members-access interface, and is fully manageable with the egoSite Content Management System (CMS). From simple functionality such as the events booking system, to a fully featured walled-garden forum, the site provides all of the necessary features for an organisation of this type.

In addition to designing and developing the website, Egovision provided branding for the group.
